CITY BREATHES SIGH OF RELIEF
SARASOTA KEYS ROTARY CLUB
HAS FOUND A NEW HOME

After months of intense deliberating and a nerve racking search, Sarasota Keys Rotary has a new meeting place. Late Monday evening in the Oval Office, with unanimous approval from the House and Senate and with the blessing of the Commander-in-Chief, Sarasota Keys Rotary Club will be meeting downtown at the University Club!

Well, it may not have happened quite that way, and the decision may not have required a special act of

congress -- It still is official, via a high tech conference call, the Sarasota Keys board reached a decision on the temporary home for the club.

Sadly we must wave good bye to the Yacht club--- the final Rotary meeting at this location will be held on June 26th.

When the new yacht club goes up we are certain that they will welcome us with open arms and smiling faces.

Thanks goes to our President, David Pilston for searching out a new venue for the

club. We realize how difficult it must have been -- eating out and testing meals at restaurants on the key and in the downtown area. (rumor has it that he was willing to eat lunch at every restaurant in town in order to find a suitable home for this club --- what a sacrifice.

We were very fortunate, as a club, we did not require a special session with the County or City Commission for approval on our new meeting place.

What you have

heard about the University Club is true: the view is fantastic; the parking is ample; the price is reasonable and Thursday's are available.

Our first meeting at the new location will be on July 10, 2008. There will not be a meeting on July 3rd. Enjoy your fourth of July Holiday.

The University Club is located on the 12th floor of the downtown Bank of America building 1605 Main Street.
